

WISDOM, JUDGMENT, AND AI

A Special Community Presentation with Robby Butler

Sunday, April 12, 2026

Light Lunch at 11:30 AM | Presentation Begins at 12:30 PM

Christian Science Reading Room

912 S Coast Hwy 101, Encinitas, CA 92024

Join us for a timely and practical community conversation on artificial intelligence, business leadership, and the enduring importance of human wisdom.

We are pleased to welcome Robby Butler for this special presentation exploring how AI is rapidly reshaping business—and why human judgment, ethics, discernment, and wisdom remain essential.

Who Should Attend

- Business owners and entrepreneurs
- Real estate professionals and investors
- Local professionals and Chamber members
- Tech-curious community members
- Anyone interested in how AI is impacting everyday life
- Those in the practice and students of Christian Science.

About Robby Butler

Robby Butler is Managing Director of Y Street Capital, a real estate investment firm overseeing approximately \$130 million in assets. He is recognized for his practical, forward-thinking work at the intersection of artificial intelligence and business strategy, and speaks nationally on the subject—including at major banking and finance conferences. He has also been featured in Christian Science periodical content, including the Christian Science Sentinel's *Sentinel Watch* and the *Christian Science Journal*. He is also a graduate of Principia College and an active member of his church community.

The session will include a presentation followed by open Q&A. Guests are warmly invited to arrive early for a light lunch at 11:30 AM.

This is intended as a community conversation—not just a business talk. Whether you are a business owner, professional, metaphysician, medical professional, student, investor, creative, or simply curious about how artificial intelligence is affecting our world, you are warmly invited.

Hosted by the Encinitas Christian Science Reading Room
